Issue #	User Story Title/Task Title	Description/Associated Tasks	Due Date	Priority (low, medium, high)	Risk (low, medium, high) + explanation	Responsible	Story Points
#154	TSK.008.003 - Implement UI message for when a user doesn't exist	This feature should implement a UI notification when the instructor creates a team and a user doesn't exist	13/11/2024	low	low- just a user notification	Mauricio	1
#160	TSK.006.002.001 - create functionality to delete reviews in tests	This task should add functionality to access the database in the cypress tests to be able to delete the reviews in the database after they have been created	21/11/2024	high	medium - have to research how to make node run with cypress	Mauricio	2
#165	TSK.010.001 - Create database table to store course documents	- Create database table to store blobs that will be course documents	22/11/2024	high	medium - Blob storage is new for our team with postgres and could take some learning	Nolan	2
#167	TSK.010.002 - Create endpoints to upload course documents	- Create server endpoint to upload a course document	22/11/2024	high	high - receiving an uploaded file is new and can have many challenges associated with it	Nolan	4
#170	TSK.010.003 - Create endpoints to retrieve course documents and list	- Get a list of all documents for a given course - Download a specific document from a given course	23/11/2024	high	medium - downloading files from our server is new for our team and could take some learning	Nolan	4
#174	TSK.009.005 - Create endpoint to release reviews	- Create endpoint for an instructor to release anonymized evaluations to students	23/11/2024	high	low - emailing from the backend server has already been done before and the rest is simple database queries	Nolan	4
#164	TSK.010.004 - Create frontend page to upload course documents	- Create a page for instructors to upload documents in a course	23/11/2024	high	medium - Uploading a file has a very specific format it must follow	Mauricio	3
#172	TSK.009.001 - Create endpoint and queries to get anonymized reviews as a student	- Create an endpoint for a student to see their feedback from their evaluations	24/11/2024	high	medium - It is a similar query to other endpoints and the complication comes from syncing it up with the release of the evaluations	Nolan	3
#173	TSK.009.002 - Create frontend functionality for instructor to release reviews	- Add the frontend logic for an instructor to release the reviews for a given course	24/11/2024	high	low - very small addition that doesn't affect many components	Rym	1
#143	at.006.002 - Cypress test for registering user feedback	- Created a cypress test to check that a student can successfully review a teammate	26/11/2024	Medium	low- doesn't interfere with existing functionality	Jaden	2
#103	at.005.001 - api only return teammates from the students assigned team	- Created cypress test to ensure students can only see their own teammates	26/11/2024	Medium	low - cypress test doesn't interfere with other functionality	Jaden	2
#37	at.002.003- System displays proper feedback after instructor confirms the team	- Cypress test to ensure that when a team is created through cvs upload that we get the proper message	26/11/2024	medium	low - learned new cypress functions that were fairly simple to grasp and implement	Jaden	2
#189	TSK.009.003 - Implement UI for student to view their own review and feedback	- Implement the UI for students to be able to review their own reviews and feedback comments	25/11/2024	high	medium - react is already known, it is just a matter of connecting to the api and watching out for bugs	Rym	2
#190	TSK.009.004 - Implement functionality for student to view their own review and feedback	- Implement the UI for students to be able to review their own reviews and feedback comments in an anonymized way	25/11/2024	high	incoherent - this task was closed as a duplicate of #189 since the functionality was done together	Rym	0
#178	AT.007.001 - The instructor can view the teams and click on review button for a team where the summary view and detailed view will be displayed	-testing if the instructor can view the teams and click on review button for a team where the summary view and detailed view will be displayed	26/11/2024	high	low - it simply requires testing if the code works	Carla	2
#161	US.009 - Releasing Reviews	-As an instructor, I want to make the results of the anonymized peer reviews available to my students	21/11/2024	high	high -we needed to list all the necessary tasks	Nolan	8
#162	US.010 - Course Documents Page	-As an instructor I would like to upload documents that will be available to all students in a course.	21/11/2024	high	high - we needed to list all the necessary tasks	Nolan	8
#193	AT.010.001 - Instructor can upload a document	-testing the functionality of document upload for the instructor with cypress	26/11/2024	Medium	low - it simply requires testing if the code works	Carla	2
#194	AT.008.001 - Non-existent users account creation via API.	- testing the functionality of the creation of a non-existent user account via API using Cypress	26/11/2024	Medium	low - it simply requires testing if the code works	Jaden	2
#180	TSK.010.003 - Add frontend functionality to retrieve course documents	-Add the frontend functionality for all users (instructors and students) to be able to retrieve the documents of a course.	24/11/2024	Medium	Medium-It has some dependencies and had to research how to do it	Mauricio	3
#196	AT.009.001 - Students can see their reviews Cypress test.	- Test if the functionality students can see their reviews works by using cypress	26/11/2024	Medium	low - it simply requires testing if the code works	Carla	3
#25	AT.003.006 - Instructors can view the members of their created team using cypress	- Testing if the instructor can see the members of their course by using cypress	26/11/2025	Medium	low - it simply requires testing if the code works	Carla	3
