SPRINT 3

Issue #	User Story Title/Task Title	Description/Associated Tasks	Due Date	Priority (low, medium, high)	Risk (low, medium, high) + explanation	Responsible	Story Points
#122	TSK.007.006 - Implement API enpoint for summary	- Implement the backend API to access the summary of evaluations for a student in a given team.	04/11/2024	high	high - The database query for this task can be quite complicated to allow the database server to perform all of its optimization while still getting all the data we need in the format we need	Nolan	4
#128	TSK.007.003 - Implement the frontend of the dashboard summary view	- Implement UI design for Evaluation Summary Dashboard - Implement frontend logic to display results in Evaluation Summary Dashboard	05/11/2024	high	small- the task didn't requiere much work it reused code from previous task	Rym	2
#133	TSK.007.008 - Implement summary of student reviews on a per course basis	- Implement the backend API to access the summary of evaluations for all students in a given course	06/11/2024	high	low - The Query is very similar to that of #122	Nolan	2
#127	TSK.007.007 - Implement API enpoint for details	- Get the evaluation details for a given student in a given team	07/11/2024	high	high - the query is quite complicated for this type of query	Mauricio	4
#131	TSK.007.005 - Implement the Evaluation Results Detailed View	- Implement UI design for evaluation results detailed view - Implement functionality for evaluation results detailed view - Implement navigation for evaluations results to detailed view	07/11/2024	high	medium -had multipl points to implement for that task	Rym	3
#21	AT.003.001 - Student can view a list of their assigned teams	- Acceptance test for viewing your team as a student	10/11/2024	high	low - added an accptance test video to sprint 3 folder	Jaden	1
#35	AT.002.001 - Teams are successfully created with students assigned after team creation via CSV file import	- Acceptance test for csv upload to create teams	10/11/2024	high	low - added an accptance test video to sprint 3 folder	Jaden	1
#24	AT.003.004 - Instructors can view all their created teams	- Acceptance test for instructor seeing the teams they have created in a course	10/11/2024	high	low - it is adding a video of the test to the sprint 3 folder	Khalil	1
#129	TSK.007.004 - Implement the frontend of the dashboard summary view for all teams	create a component for viewing a dashboard, call api for summary for all teams, display the summary for the teams	11/10/2024	high	medium - react knowledge is already aquired, however the API is still being developped	Rym	2
#136	AT.001.003 - Create Cypress test for creating a user	- cypress test to check the apperance of the components and the user input on the registration page	11/10/2024	high	low - Aquiered cypress knowledge which was not hard to grasp	Carla	1
#137	AT.004.003 - Create cypress test for login in user	- cypress test to check the apperance of the components and the use	11/10/2024	high	low - Aquiered cypress knowledge which was not hard to grasp	Jaden	1
#125	TSK.007.001 - UI design of the dashboard	- designed the layout of the team and the button for the results	11/10/2024	high	low - didn't requiere any knowlege for the drawing	Carla	2
#124	TSK.007.002 - UI design to display the summary and the detailed view of the results	- design of the information display regarding the results	11/10/2024	high	low - didn't requiere any knowlege for the drawing	Carla	2
#121	US.007 - Instructor Dashboard	As an instructor I would like to have a dashboard to access the results of the assessment in a detailed and summary form.	11/10/2024	high	high, we know how to do most of the implemenation but completing all the tasks for this issue makes it high	Rym	8
#120	US.008 - Send email with newly created users data	As an instructor, I want an account to be created for users that don't exist and send them an email with their information.	11/10/2024	high	high - we need to implement an automatic email system to notify students	Mauricio	8
